Features and Implementation Status

Status key: **Implemented** / **Partial** / **Planned** / **Not included** / **Unverified** (not yet checked in the real app).

#	Feature	Intended behavior	Status
1	Voice-first home	Prominent Speak control	Implemented
2	Tamil, English, Tanglish	Multilingual interaction	Implemented
3	Personalization	Remember consented preferences	Unverified
4	Reminders	Add, edit, save, delete and reload	Implemented
5	Family contacts	Register trusted contact	Implemented
6	SOS	Clear user-initiated assistance flow	Unverified
7	Relaxation music	Appropriate audio per category	Implemented
8	Medicine scanner	Assist with reading medicine information	Unverified

Important safety note

This project does **not** claim automatic critical-situation prediction or automatic family calling. Any SOS or calling behavior is user-initiated, and a live calling feature is clearly distinguished from a simulated demo.
